# JOINT STUDY GROUPS' REPORT

International Lead & Zinc Study Group

International Nickel Study Group

# Study of By-Products of Lead, Zinc, Copper and Nickel and Directory - 2015

- This joint report and directory updates and builds on the 2012 report on the same topic and provides information on the by-product metals of copper, zinc, lead and nickel. Updated information is included on bismuth, germanium, indium, cobalt, platinum group metals, scandium, molybdenum, rhenium, selenium, tellurium and rare earths. In addition, this new report adds coverage of gallium, cadmium, gold, silver, arsenic and mercury. The work was carried out by Oakdene Hollins of the UK under a contract for the three Study Groups.
- The 338-page publication comprises two parts: a report and a directory. The Report provides information on the production, usage, trade and the outlook for the by-product metals. Detailed information is provided on common sources of by-product metals, refinery processes, recycling, markets, contracts, historic prices and pricing mechanisms, uses, government regulations, REACH status of compounds, government stockpiles and trade restrictions.
- The 100-page Directory provides a listing of mining and producing companies and production capacity for each of the by-product metals.
- An appendix with information on market balances over a ten-year period is provided for many of the metals.
- Statistical data is provided up to 2014 and data on expansion plans and forecasts are included.
- The Study, Directory and Market Balances are a package, sent as one pdf file.

## Contents

1 Executive summary	1
2 Introduction	5
2.1 Context	5
2.2 Aims and Scope	6
2.3 Background to By-product Metals	7
2.4 Methodology	
2.5 Structure of this Report	8
3 Industry Survey	10
3.1 Survey Participants	
3.2 Survey Results	
4 By-products of Lead and Zinc	13
4.1 Bismuth	
4.2 Cadmium	22
4.3 Indium	33
4.4 Gallium	44
4.5 Germanium	54
4.6 Silver	
5 By-products of Copper	71
5.1 Molybdenum	
5.2 Rhenium	
5.3 Rare Earth Elements	91
5.4 Selenium	103
5.5 Tellurium.	115
5.6 Gold	124
5.7 Arsenic	138
6 By-products of Nickel	149
6.1 Cobalt	150
6.2 Platinum Group Metals	165
6.3 Scandium	182
6.4 Mercury	190
7 Conclusions	201
Annex A: Reserves	
Directory of Producers of By-Product Metals	
Tables of Market Balances	317
