

The International Nickel Study Group (INSG)

Nickel in Batteries

Available Now

- Comprehensive report drawing on data from a variety of sources, both government and private, on the use of nickel in batteries
- Discusses the history of nickel in batteries
- Describes the principal types of batteries which use nickel
- Provides a comparison of the various nickel containing batteries, in terms of cost and energy density
- Includes information on the environmental regulations impacting nickel batteries
- Describes the recycling of nickel batteries
- Includes a list of major producers of nickel containing batteries and provides web addresses

The Report's Contents

- I. Introduction**
- II. History of Nickel in Batteries**
- III. Usage of Ni in batteries**
- IV. Types of Nickel Batteries**
- V. Comparisons of Types of Batteries**
- VI. Production and Trade**
- VII. Nickel Batteries in Hybrid Autos**
- VIII. Environmental Regulations**
- IX. Recycling of Nickel in Batteries**
- X. Principal manufacturers**
- XI. Conclusions**
- XII. Annex – List of Producers**

About INSG

The International Nickel Study Group is an intergovernmental organisation, currently comprising 15 member countries. It is the recognised primary source of detailed statistics and market-related official government data for the world nickel industry. INSG's mission is to promote market transparency in the nickel sector and to promote dialogue between member governments and their nickel industries. INSG's secretariat is based in Lisbon, Portugal.

Visit the INSG Web Site: <http://www.insg.org>

Study Price and Ordering

The report is priced at €125 for companies located in INSG member countries, and €250 for those in non member countries.
